

Amended Applications **Pipeline Application Fee Calculation Worksheet**

Applicant: _____ OGC File #: _____

As stated in Information Letter # OGC 09-10, the fees established in section 20 of the Pipeline Regulation have been amended to include a pipeline application amendment fee. This worksheet has been established to assist with the calculation of required pipeline application amendment fees.

As defined in the OGC's Clarification Notes document, any **significant change** to an original or approved application will require a **NEW application** for purposes of the fee schedule. A **significant change** is defined as any change where:

- There is any addition to total length of pipe of 2 kms or greater.
- There is pipe outside diameter increase from less than 152 mm to 152 mm or greater and which covers a total distance of 3 kms or greater.
- There is a significant change of pipeline origin or destination.

Any other change to the original application (prior to approval) or approved application (prior to leave to open) shall be considered an "Amendment" for the purposes of the fee schedule.

To complete the worksheet, provide a summary of the pipeline amendment to illustrate how it meets the amendment criteria.

Summary of Amendment:

Please make cheque payable to the Ministry of Finance.
The cheque is required to be submitted at the time of application.
