INFORMATION LETTER # OGC 09-09

Subject: British Columbia Noise Control Best Practices Guideline for Oil and Gas Activity

To: Industry Clients

Effective Date: March 31, 2009

Background:

The BC Oil and Gas Commission (Commission) in consultation with stakeholders and industry has developed the [British Columbia Noise Control Best Practices Guideline](#) to help manage noise associated with oil and gas activities.

This document provides industry and stakeholders with a better understanding of noise levels that are suggested as best practice standards for oil and gas activities taking place in British Columbia.

Requirement:

All **newly constructed** production facilities are encouraged to follow the guidance outlined in the *British Columbia Noise Control Best Practices Guideline*.

The *British Columbia Noise Control Best Practices Guideline* can be found on the Commission's website at <http://www.ogc.gov.bc.ca/opsreq.asp#NoiseControl>.

If you have any questions regarding the above, please contact:
